

--It is my adamant opinion that the FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protection.

--Since the law was implemented I don't have to answer the phone every 15 minutes, or AVOID it I should say.

--The law has been extremely effective-"I used to receive 20 calls per week, now I only receive a couple and that is due to my own stupidity of signing up for something").

--This is clearly a form of harassment, and I don't want it in my home.
